

I wanted to express my belief that KLOVE is a necessary provider of radio content. They are the only station I get locally that provides Contemporary, Clean and Christian programming. If their signal is displaced by an LPFM station, I will have no other alternative station to tune in that provides the same content. They provide music, local information and useful family and parenting information. All their content can be listened to by families. It is both interesting and imformative for kids, teenagers and their parents. They offer community calendar information at no charge and available no where else. They frequently sponsor other non-profit organizations as well. Please do not allow them to be squeezed out. Thank you for your time.
